Art Unit: 2612

1. The petition to revive filed 1/23/06 having been granted on 3/21/06, an action on the merits follows. The amendment filed 1/23/06 has been entered. The indicated allowability of claims 19-20 is withdrawn in view of the rejection set forth in paragraphs 2-3 below; the delay in setting forth the rejection is regretted.

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 19-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

(See the Official Gazette Notice dated 11/22/05 regarding subject matter eligibility.)

In claim 19, the term "storage medium" (one occurrence on each of lines 2 and 3) does not include the words "computer readable" (before "medium"), and there is no recitation that the processor necessarily reads (or otherwise interacts with) the "storage medium"; i.e., the "instructions" could be input to the processor some other way. Therefore, the "article comprising...a storage medium...including stored instructions" is considered non-statutory subject matter.

4. Claims 1-18 and 21-22 are allowed.

5. This Office action is non-final.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas J. Mullen, Jr. whose telephone number is 571-272-2965.
